Fred W. Scott, Jr.
Lower Bundoran
1801 Bundoran Drive
North Garden, VA 22959

Dear Fred,

Words can never express the gratitude we feel for the advocacy that you and Tom Rosen have tirelessly worked toward for the implementation of angle of attack in the GA community. The tragedy you suffered with the personal loss of close friends that we all believe could have been avoided if they would have had an angle of attack system had a large impact on you.

Your commitment to the aviation industry focused on angle of attack flying and highlighting Alpha Systems AOA is monumental and does save lives. It is obvious that your contagious enthusiasm has inspired so many highly skilled and trained pilots to join you and Tom in the promotion and use of angle of attack in every aircraft flying.

Because of your unwavering commitment over the past two years in helping us with product improvements and spreading the word about the importance of angle of attack, we feel compelled to offer the aviation community a way to continue your legacy of saving lives by making it easier from a cost standpoint in purchasing our product.

We are pleased to offer a "Save a Friend" discount on your behalf. For the next year, anyone who reads your website and sees the benefits of angle of attack, orders our product and mentions either your or Tom's name or the "Save a Friend" discount will receive 10% off all of our systems and accessories.

Again, thank you and Tom for all the work and dedication to bring angle of attack to the forefront of the general aviation community.

Sincerely,

Mark Korin
